

September Placement Information: Parents as Partners

We are beginning the process of forming the classes for Cameron students in September 2018. We consider many variables when creating classes for the following school year. Some of the key considerations include ministry designations, leadership skills, academic achievement, social and emotional needs and a balance of boys and girls. We also look at social groupings, class dynamics, multi-age class variations and curricular demands. This process starts in June of each year and culminates in the first week of September. The classroom teachers, in consultation with the learning support teachers, counselor, ELL teachers, head teacher, and principal put the classes together.

If parents have any considerations they would like us to be aware of we welcome your input. Please complete the form below and return it to the school office as soon as possible. We make placements based on learning needs, so requests for specific teachers cannot be honoured, however, if you tell us what kind of teacher your child learns best with we will try our best to accommodate that.

Please return to your classroom teacher or the office no later than Friday, June 1, 2018.

Mr. Al Post
 Principal

Child's Name: _____ Current grade _____

	Strengths	Areas to be considered
Academic Learning		
Social and Emotional Development		
Physical Development
