

## Vaccines for Kindergarten children

Getting your child or the child in your care vaccinated on schedule is the best way to protect them from many dangerous diseases. There are 2 vaccines recommended for all children at age 4.

- **Tdap-IPV** protects against tetanus, diphtheria, pertussis (whooping cough), and polio.
- **MMRV** protects against measles, mumps, rubella, and varicella (chickenpox).

### How do I know if the child is up to date on their vaccines?

Check the child's immunization records\* one of these ways:

- scanning this QR code to Health Gateway
- going online to [HealthGateway.gov.bc.ca](https://HealthGateway.gov.bc.ca)
- using the Health Gateway app

\*Records for children under 12 years old are on the parent or caregiver account.

### What if the child had vaccines but they are not on their immunization record?

If the vaccines were given by a doctor, nurse practitioner, or pharmacist, the vaccines might not be on their immunization record. If the child's record is missing vaccines, please do the following:

1. Contact the health care provider who gave the vaccine and ask for a copy of the immunization record.
2. Report these immunizations online by either scanning this QR code or going to [FraserHealth.ca/immunizationform](https://FraserHealth.ca/immunizationform)

### How do I get vaccines for the child?

You can make an immunization appointment at a public health unit. Please call:

- 604-702-4906 if you live in Mission, Abbotsford, Chilliwack, Agassiz, or Hope
- 604-476-7087 if you live in any of the other communities of Fraser Health

If you prefer, you can make an immunization appointment with a doctor, nurse practitioner, or pharmacist. Call ahead and ask if this service is available.

All routine vaccines are free in British Columbia.

For more information, please call your local public health unit or visit our website [FraserHealth.ca/immunize](https://FraserHealth.ca/immunize).
